Tri-Cities Airport  
Addendum #2**

The fuel flowage gallons reported in Addendum #1 only represent the fuel flowage that is reported to and tracked by the Port (general aviation). This number does not include fuel for the commercial airlines, as that number is not reported to or tracked by the Port of Pasco. Commercial airlines pay landing fees in lieu of fuel flowage fees, thereby eliminating the need for the Port to track commercial airline fuel flowage.
